Mr. Kahi:

We recently had the pleasure of working with Lifeline Fire Protection on a project with a 24 hour deadline. We called them in the morning and they arrived to complete the job that afternoon. Everything we needed done was completed and the quality of their work was apparent and superior in every way. They have demonstrated that they will go above and beyond for their clients.

Their in-depth knowledge and dedication to our requirements ensured that the project was done on time and on budget. The breadth and depth of their knowledge combined with proven reliability makes them a pleasure to work with.

I would highly recommend Lifeline Fire Protection for all of your fire protection emergency needs.

Regards,

Jonathan Fernando
